TO OUR GUESTS

Commencement is the culmination of the academic year. Today we recognize our graduates' accomplishments. We hope this ceremony is an important and meaningful occasion for students, their families, and the faculty and staff. We offer you the following guidelines to enhance the dignity and ensure the smooth flow of the ceremony.

Guests are asked to withhold applause during the presentation and hooding of doctoral candidates. Please hold such applause until all candidates have returned to their seats.

As a service to parents with small children who may become restless during the two-and-a-half hour event, the ceremony will be broadcast in the West Main Hall of the stadium.

Graduates and guests are asked to please remain seated until the end of the recessional.

Sign language interpretation is provided on stage and in front of Section 127. Guests who are hearing impaired may sit in Section 127 of Memorial Stadium so that they may better view the interpreters. Graduates who are hearing impaired should sit as close to the stage as possible within their designated section on the field. Please see an usher if you need assistance.

For your convenience, a first-aid station is located at Gate 24 on the south end of the stadium.

In the event of inclement weather, guests will be alerted of changes to the program or evacuation plans.

SINGING OF "THE STAR-SPANGLED BANNER"

SUNG BY THE AUDIENCE

O say can you see by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming?
Whose broad stripes and bright stars thro' the perilous fight,
O'er the ramparts we watch'd were so gallantly streaming!
And the rocket's red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
O say does that Star-Spangled Banner yet wave,
O'er the land of the free and the home of the brave?

A popular selfie location for students and alumni alike, the Alma Mater sculpture didn't always live at the corner of Green and Wright Streets. For 33 years, she (along with Learning and Labor) stood on the south campus behind Foellinger Auditorium. In 1962, she was moved to her current location.

Started by four students in 1968, the Black Chorus has been a part of the campus cultural landscape for almost 50 years.

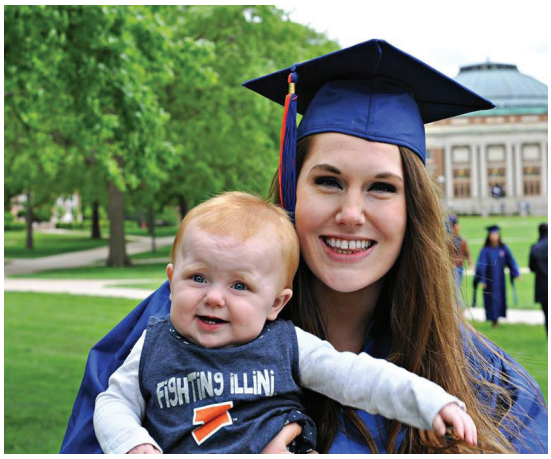
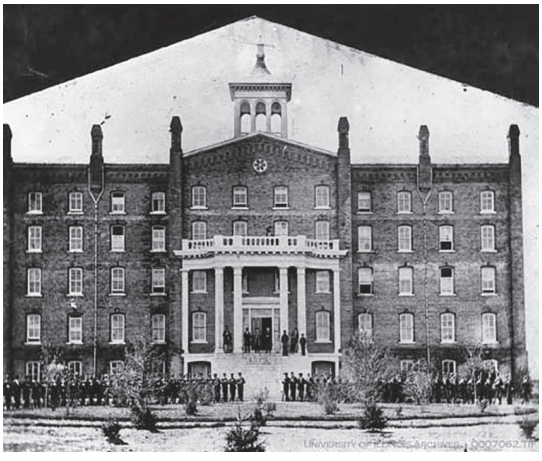
Orange and blue became the University of Illinois' official school colors on November 6, 1894, just in time for the dedication of Engineering Hall. Students and officals struggled to choose a unifying color for years, first using gold and black.

ILLINOIS



FIGHTING ILLINI



150

"There is no such thing as an Illinois student."

Alumnus and Pulitzer Prize-winning columnist Roger Ebert wrote that in 1964 as he edited a book on the first 100 years at the University of Illinois at Urbana-Champaign.

He's right. As Illinois kicks off its sesquicentennial celebration this year – marking 150 years of scholarship and impact – our students and graduates continue to prove that there is no such thing as a typical Illinois student.

The first class of graduates started with only two faculty members, about 70 students and a lone building nicknamed "The Elephant" standing among muddy fields.

This year's freshman class numbers nearly 7,593 students – our largest class in history. Our alumni leave campus to build skyscrapers in Chicago and virtual reality startups to change how we interact with the world. We see them on the big screen and on the Broadway stage. They lead classrooms, boardrooms and research laboratories.

With close to 450,000 alumni around the globe, our graduates are the most visible measure of the university's success and the strength of its diversity of inventions, discoveries and ideas.

Congratulations, Class of 2017, as you leave campus and continue in the legacy of thousands of Illinois alumni – making a significant and exceptional impact on the world.

"We are so various that not even the most misty-eyed alumni could confuse us," Ebert said. "We are not typical – of each other, or of anything else. This University is too big, and we are too many, for it to be possible that a product could be turned out here."

"And that is not a weakness but a strength."

BEST WISHES TO THE CLASS OF 2017!

On behalf of the Board of Trustees and the almost 13 million residents of our great state whose interests we represent, I congratulate you, graduates of the Class of 2017.

I hope you are as proud and happy to be here today, on the Urbana-Champaign campus, as I am — proud to be an alumnus of our most noble and exemplary institution.

Your Illinois education has provided you with a strong foundation upon which to realize your goals. No matter what you do and where you go, that education will help you achieve your dreams.

Not only does the University of Illinois provide unparalleled, high-quality education, it also is a powerful engine of innovation and excellence that benefits both our citizens and our economy. And, in these days of ever-increasing globalization, our university's efforts benefit, not just Illinois, but people and institutions around the world.

Today I am pleased to welcome you to one of the largest alumni associations in the world. Our alumni lead by example, embracing the strong University of Illinois values of ingenuity, compassion and hard work.

Whether you stay in our wonderful state or go elsewhere, you'll always carry a piece of the University of Illinois in your heart. I urge you, in all you do, to promote, protect, and preserve our grand legacy of learning and labor.

May you share the pride I have in our university and may you spread our tradition of Illinois excellence wherever your journey might take you.

TIMOTHY N. KORITZ
Chair of the Board of Trustees

CONGRATULATIONS, GRADUATES!

Today, you have achieved a life goal – one that you've worked so hard toward, class-by-class and semester-by-semester. Tomorrow, you head off into less-chartered territory, but what you have learned here has given you an invaluable toolkit as you move into your future.

Your years at the University of Illinois at Urbana-Champaign have unlocked the doors to your dreams, uniting your passion with world-class faculty and programs to nurture talents that will lift your careers, your families and your communities.

The compass that will guide your success is the same one that brought you here today. As Illinois' favorite son and two-time presidential nominee Adlai Stevenson once told graduates: "When you leave here, don't forget why you came." Your ambitions and commitment – fueled by the skills you fostered here – will steer you to the future you imagined.

On behalf of the entire University of Illinois System, it is an honor to celebrate you, joined by the proud family and friends who have supported you along the way.

Enjoy your day and come back often.

TIMOTHY L. KILLEEN
President

John Milton Gregory, *right, the university's first regent, is buried north of Altgeld Hall. His commemorative marker on the south of Altgeld reads, "If you seek his monument, look around you."*

"Without lake, or hill, or river, or rock, one of the most impressive of college grounds you can find anywhere has been made." ***– Andrew Draper****, left, president of the University of Illinois, 1894-1904.*

CONGRATULATIONS TO ALL OF OUR 2017 GRADUATES!

You all have the singular distinction of earning your degrees in the year when we celebrate the sesquicentennial anniversary of the founding of the University of Illinois. On February 28, 1867, a final signature formally established our state's land-grant university, placed it in Urbana and changed the world. On that first day, there were no faculty, no students and only a single, empty building.

But there was a belief in the potential of education to transform lives. There was an idea for a university that would be open and accessible to anyone with a desire to learn. Our university today would be unrecognizable to our first faculty and students. We are bigger. We are so much better.

Today, you all earn a degree and also earn your place in that history. Your achievements, accomplishments and efforts here have been impressive. You picked a challenging academic road when you chose to attend. You carried on the tradition of excellence that has defined Illinois across generations and centuries.

Congratulations are also due to the parents, spouses, friends, mentors and family members who have been with these graduates every step of the way. Today is your celebration as well and I encourage you to claim a part of every round of applause that will shake the stadium today.

We should also thank those in the extended Illinois family who have supported these graduates with gifts to campus scholarship and fellowship programs. These investments in human potential make the Illinois student experience possible for thousands of our students every year. They embody a spirit of generosity that can also trace itself back to 1867.

To all of you who will earn a degree today – undergraduate, master's, professional or doctoral – I wish you good fortune and personal and professional success in the years ahead. I also leave you with a request. I ask that you share the character, kindness and integrity you showed in your time at Illinois with the communities that you will call home throughout your lives.

We're launching our next 150 years here at Illinois this year. And clearly, the Class of 2017 has already set the example of what the world can expect from the University of Illinois at Urbana-Champaign.

Congratulations to you all!

ROBERT J. JONES
Chancellor

COMMENCEMENT SPEAKER

NICK OFFERMAN
Actor, Humorist, Author, Woodworker

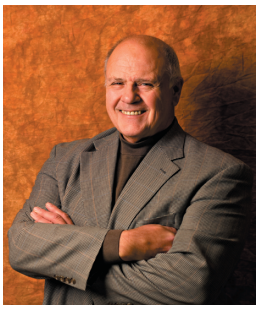
Nick Offerman is a 1993 graduate of the University of Illinois at Urbana-Champaign, earning a Bachelor of Fine Arts in Theatre.

A native of Minooka, Illinois, Offerman learned basic carpentry from his father. He was fortunate to have the chance to utilize these skills when he began working for wages in the university's scene shop at the Krannert Center for Performing Arts. After graduating, Offerman moved to Chicago where he and a group of U of I students founded the Defiant Theatre, an experimental company specializing in spectacle, puppets and tomfoolery. In Chicago, Offerman launched his professional acting career and built scenery and props for large equity theaters to supplement his meager acting income.

After earning a couple of feature film roles, Offerman relocated to Hollywood to further pursue his acting career. He also continued to work as a carpenter building cabins and decks while landing bit parts on television shows including *ER, 24, Deadwood, The West Wing, Will & Grace, NYPD Blue,* and *Gilmore Girls.* Offerman's break-out role came in the form of the taciturn and carnivorous bureaucrat Ron Swanson on the hit comedy Parks and Recreation. Additional television work includes roles on The Simpsons, Fargo, Bob's Burgers, and Drunk History. Offerman has also entertained audiences in a wide variety of films, such as *We're The Millers, Sin City, 21 & 22 Jump Street, Smashed, The Lego Movie, The Founder, Me and Earl and The Dying Girl, Kings of Summer, A Walk in the Woods,* and *The Men Who Stare at Goats.*

Last October, Offerman released his third New York Times Bestseller, *Good Clean Fun: Misadventures in Sawdust at Offerman Woodshop.* His series of humorous yet earnest publications began with *Paddle Your Own Canoe: One Man's Fundamentals for Delicious Living* in 2013, followed by *Gumption: Relighting the Torch of Freedom with America's Gutsiest Troublemakers* in 2015.

Staying true to his bucolic roots, Offerman owns and operates Offerman Woodshop in California where he and a team of redoubtable American woodworkers create hand-crafted canoes, fine furniture, and other sundry items. A shining example of their work is permanently displayed on the grounds of the Japan House in the form of an *azumaya* (Japanese gazebo) built from salvaged California old-growth redwood to honor his teacher Professor Emeritus Shozo Sato. Offerman regularly visits campus and gives generously of his time for special events and fundraisers to benefit his alma mater.



RONALD JOHN ADRIAN
Honorary Degree of Doctor of Engineering

HONORARY DEGREE CITATION

Ronald John Adrian, teacher, scholar, innovator. Your career has focused on understanding the three-dimensional space-time structure of turbulent flows and the mechanisms underlying their formation, evolution, and velocity in a variety of flows. Because of your achievements in this area, your peers consider you one of the most important fluid mechanicians of the last fifty years.

You were a key developer of an experimental technique called laser Doppler velocimetry, and you were the developer of the concept, hardware, methodology and software analysis approach of particle image velocimetry (PIV). PIV has revolutionized the field of fluid mechanics and was critical in a number of important applications, including aerodynamics, understanding flow in large blood vessels, and estimating the flow rate in the Deepwater Horizon blowout. Recently you have made profound contributions in microfluidics. You were the first to adapt PIV to microfluidics, and the first to perform detailed measurements of velocity fields and chemical mixing at this scale.

Your scholarship has been recognized with the most prominent honors in your field, including the American Physical Society Fluid Dynamics Prize and the American Society of Mechanical Engineers Fluids Engineering Award, and your election in the National Academy of Engineering. The many students and researchers you have mentored have become leaders in academia, important governmental laboratories, and leading industrial laboratories.

In recognition of the excellence of your scholarship, your seminal advances in fluid mechanics, and your mentorship of young scientists, and upon the recommendation of the Senate of the Urbana-Champaign campus, it is a great honor to present you to the President of the University for the honorary degree of Doctor of Engineering.

Presented by: ***Andreas C. Cangellaris, Dean of the College of Engineering, University of Illinois at Urbana-Champaign***

ALUMNI ASSOCIATION AWARDS

Colleen Callahan Burns

University of Illinois Distinguished Service Award

An agricultural broadcasting trailblazer, Colleen Callahan Burns was the first female agribusiness director for WMBD Radio and TV in Peoria, the first female president of the National Association of Farm Broadcasting and the first woman inducted into the NAFB Hall of Fame. Following her distinguished 30-year career with WMBD, Burns launched her own communications firm, Colleen Callahan Communications, in 2003. Six years later, the Obama Administration appointed her state director for USDA Rural Development in Illinois. U.S. Secretary of Agriculture Tom Vilsack named Burns the Federal Disaster Recovery Coordinator for Drought in 2012.

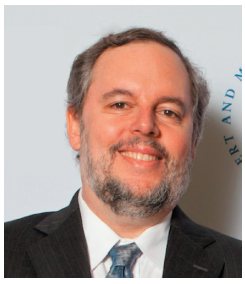
Through the years, Burns has been an active supporter of the University of Illinois, helping to drive the Ag Communications Alumni Leadership Council, and serving in leadership positions with the College of ACES Alumni Association, the Fighting Illini Pork Club and the University of Illinois Alumni Association. Other accomplishments include the expansion of the annual Salute to Agriculture Day and the creation of the Dr. Jim Evans Endowed Chair position in the Colleges of ACES and Media. In 2014, Burns and her family, which includes her husband, Richard, '73 ACES, and daughter, Brittney, '03 ACES, were presented with Honorary Membership into the University of Illinois Varsity "I" Association in recognition of outstanding service.

William F. Baker

University of Illinois Alumni Achievement Award

One of the world's foremost innovators in structural engineering, William (Bill) F. Baker is a structural engineering design partner at Skidmore, Owings & Merrill, a Chicago-based architectural/engineering firm. He has played a key role in major construction projects around the globe, including designing the structural system of the world's tallest building, the 2,717 foot Burj Khalifa skyscraper in Dubai. A member of the National Academy of Engineering and an International Fellow of the Royal Academy of Engineering, Baker is a past recipient of the Gold Medal from the Institution of Structural Engineers, the Fritz Leonhardt Preis, the Gustav Magnel Gold Medal from the University of Ghent, and the Fazlur Rahman Khan Medal from the Council on Tall Buildings and Urban Habitat. He also has been honored with the American Society of Civil Engineers' Outstanding Projects and Leaders Lifetime Award for Design.

A dedicated Illinois alumnus, Baker serves on the University of Illinois Civil and Environmental Engineering Alumni Association Board of Directors, and has established the Baker Structural Engineering Fund, which supports a faculty scholar in structural engineering.



Stephen J. Elledge

University of Illinois Alumni Achievement Award

A world-renowned leader in the field of the genetics, biochemistry, genomics and proteomics of cancer cell biology, Dr. Stephen J. Elledge is the Gregor Mendel Professor of Genetics and Medicine in the Deptartment of Genetics at Harvard Medical School and in the Division of Genetics at Brigham and Women's Hospital in Boston. In addition, he serves as a Howard Hughes Medical Institute Investigator. Elledge's research focuses on applying genetics and genetic technologies to solve problems relevant to human disease. His research has produced fundamental contributions to the current understanding of cellular mechanisms of cancer and development of novel therapeutic strategies. More recently, he and his team have developed immunological tools such as VirScan, which uses a single drop of blood to determine current and past viral infections.

A member of the National Academy of Sciences, the National Academy of Medicine and the American Academy of Arts and Sciences, Elledge has earned numerous prestigious awards for his work, including the 2010 Dickson Prize, the 2013 Lewis S. Rosenstiel Award for Distinguished Work in the Basic Medical Sciences, the 2013 Gairdner Foundation International Award, the 2015 Abert Lasker Basic Medical Research Award and the 2017 Breakthrough Prize in Life Sciences.

UNIVERSITY HONORS

2017 BRONZE TABLET SCHOLARS

The University Honors designation, the highest academic honor awarded to an undergraduate, is limited to those students who have demonstrated their capacity for sustained academic excellence of a high order. To be eligible for this honor, students must have a cumulative grade-point average of at least 3.5 and must rank—on the basis of cumulative grade-point average—in the upper three percent of their college graduating class on the basis of all work taken through the academic term prior to graduation.
As part of their formal academic attire, University Honors recipients wear orange and blue braided cords.

As recipients of this honor, each of the following students will have his or her name inscribed on a bronze tablet that is displayed in the corridor of the University Library. For this reason, University Honors recipients are known informally as "Bronze Tablet Scholars".

2017 CHANCELLOR'S SCHOLARS

A four-year program open to undergraduates in all curricula, the Campus Honors Program fosters collaborative relationships between exceptional students and distinguished faculty through small courses, a faculty mentor system, and competitive summer research and travel grants. Admission is awarded to only 125 of the approximately 7,000 freshmen entering the University of Illinois Urbana-Champaign each year, plus about a dozen admitted as first-semester sophomores.

The following Chancellor's Scholars are this year's graduates of the Campus Honors Program:

COURTNEY ANNE ACKERMAN, Bachelor of Science in Civil Engineering
MUZAMMIL SYED ALI, Bachelor of Science in Bioengineering
ROBERT GREGORY ANDREWS, Bachelor of Science in Liberal Arts and Sciences, Mathematics; and Bachelor of Science in Computer Science
ARJUN PRASHANT BALWALLY, Bachelor of Science in Materials Science and Engineering; and Bachelor of Arts in Liberal Arts and Sciences, Philosophy, December 2016
KEVIN MICHAEL BRENNER, Bachelor of Science in Mechanical Engineering
ZACHARY ROBERT BREWER, Bachelor of Science in Computer Science
RACHEL STEPHENIE BRIONES, Bachelor of Science in Liberal Arts and Sciences, Psychology
LAUREN ALISSA BROOKS, Bachelor of Arts in Liberal Arts and Sciences, Global Studies
QUINN ANTHONY CALVERT, Bachelor of Science in Aerospace Engineering
BRIAN CHRISTOPHER CAMPBELL-DEEM, Bachelor of Science in Engineering Physics
SEAN VINCENT CASHIN, Bachelor of Science in Electrical Engineering

Alice Cheever *(left), A. B. 1874, M.L. 1892, was one of the first female students to graduate from the university. Women gained the right to attend Illinois in 1870 after an official vote of the Board of Trustees. According to the papers of Illinois graduate Adelia Potter Reynolds, Adelia (or her mother) allegedly overheard one of the trustees declare during deliberations of allowing women to attend, "If a girl wants to build a wagon, let her build a wagon."*

Millicent Sloboda Lane *(right), first woman editor-in-chief of The Daily Illini in the '40s, used the student newspaper to champion the cause of the military trainees and veterans on campus during World War II.*

In 1948, Timothy Nugent did not accept the conventional thinking that people with disabilities could not lead normal lives or be gainfully employed. As a result of his vision, Illinois became the first postsecondary institution to offer a program of support services to students with disabilities – the Division of Disability Resources and Educational Services, the service unit of the College of Applied Health Sciences.

By 1915, with a 30 percent increase in its School of Commerce from the previous year, Illinois saw the need to create the College of Commerce and Business Administration. For the first time, students were able to major in commerce rather than take electives while majoring in "Literature and Letters," as the School of Commerce students in the 1870s and early 1900s had been required to do.

People have traveled to the moon and back, thanks to John Houbolt (B.S. '40, M.S. '42) who helped develop – and was the main advocate for – the Lunar Orbit Rendezvous. Considered an unsung hero of the Apollo program, he is credited by NASA as making the 1969 moon landing possible. (photo courtesy NASA)

Dance was offered as a course of study when a Bachelor of Science degree in physical education with a dance concentration was implemented in 1949 in the Department of Physical Education for Women.

The School of Music (SOM) opened in 1895. Pianist Charlotte Patchin was the first music instructor hired, and soon two voice teachers joined her in the 1870s. By 1893 the all-male Military Band of some 60 members represented the University at the World's Columbian Exposition in Chicago.

Established in 1897, the College of Law is one of the oldest and best-known law schools in the nation. Among the first to receive the designation, the College of Law has been recognized as an American Bar Association-approved law school since 1923. Pictured here is Harker Hall home of the College of Law from 1902 to 1927. It is named in honor of Judge Oliver A. Harker, who served as Dean of the College from 1903 to 1916.

2017 marks the 90th anniversary of the College of Media. Today's College of Media traces its roots to the creation of the School of Journalism in 1927. Created by a bill passed by the 55th General Assembly of the State of Illinois, the legislation was signed into law by Govenor Len Small on July 17, 1927. The School of Journalism opened September 19, 1927.

Marietta Stevenson arrived in 1943 to head the university's new social work division. She held classes at Chicago's Navy Pier so students could work in field placements in the city's more urban setting. Shown here hooding Mrs. Agnes Chase who at 89 received an honorary degree on June 14, 1958.

Since the 1870s – long before the College of Veterinary Medicine accepted its first class in 1948 – veterinary education and services were available at the University of Illinois. Dr. Donald McIntosh, an Illinois professor from 1886 to 1915, examines a horse at one of the free clinics open to the public every Saturday morning.

Academic Dress

Academic dress, consisting of cap, gown, and hood, originated about the twelfth century and was worn primarily for warmth. Subsequently, the material of the gown and lining, and the shape of the hood, represented the economic, social and academic status of the wearer.

In the United States, the great majority of the academic costumes now worn are in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1960. Under this code, the bachelor's gown has pointed sleeves, the master's gown has oblong sleeves with an arc at the bottom, and the doctor's gown has bell-shaped sleeves. Black is the traditional color for gowns, although at the University of Illinois at Urbana-Champaign, academic dress has been designed specifically for the Institution – blue gowns with orange accents and blue mortarboards.

The bachelor's and master's gowns are untrimmed. The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or blue, as is the case at Illinois, or may be the color of the subject to which the degree pertains. The bachelor's gown is worn closed; the master's and doctor's gowns may be worn open or closed.

The bachelor's hood is 3 feet in length; the master's, 3 1⁄2 feet; and the doctor's, 4 feet. Hoods are lined with the official color or colors of the college or university conferring the degree. At Illinois, the lining is orange and blue. The colored velvet border of the hood, which is 2 inches, 3 inches, and 5 inches wide for the bachelor's, master's, and doctor's degree respectively, identifies the faculty or field of study to which the degree pertains.

The mortarboard cap is standard in the United States. Usually, all tassels are black, but where the bachelor's graduates do not wear hoods, as at Illinois, the color of the cap tassel indicates the department of study. Candidates for degrees wear tassels on the right front quadrant of their caps and move them to the left front quadrant after degrees are conferred by the president. Caps are considered a part of the costume and are customarily removed only during an invocation or benediction, and then by men only. The orange and blue braided cords worn from the left shoulder by bachelor's graduates signify University Honors.

For all academic purposes, including trimmings of doctor's gowns, edging of hoods, tassels of caps, and linings of banners, the colors associated with the different disciplines are as follows:

Agricultural, Consumer and Environmental Sciences, maize
Applied Health Sciences, sage green
Architecture, blue-violet
Aviation, copen blue
Business, drab
Education, light blue
Engineering, orange
Fine and Applied Arts, brown
Labor and Employment Relations, drab
Law, purple
Liberal Arts and Sciences, white
Library and Information Science, lemon
Media, crimson
Medicine, hunter green
Philosophy, dark blue
Social Work, citron
Veterinary Medicine, gray

Bronze medallions engraved with the University seal distinguish faculty members who are endowed chair holders and professors. Endowed chairs and professorships carry great prestige within the institution and are among the highest honors the University can bestow on prominent faculty members.

The trustees of the University are identified by their blue gown faced with blue velvet panels and three chevrons on the sleeve. The chevrons are outlined in colors representing the three campuses and are in order in which the campuses were established – Urbana (orange), Chicago (red) and Springfield (white).

The Jewel of Office worn by the president was presented to the University by the Alumni Association. It is emblematic of the office of the president and is worn at all formal academic ceremonies. On the gold collar, also worn by the president, are engraved the names of the presidents of the University and their years of service.

Caps and gowns were worn for the first time at the University of Illinois Commencement ceremony of 1897. In the early 1900s the Commencement procession marched up Burrill Avenue to the old Armory. After diplomas were received, the procession marched back to the lawn south of Green Street. The seniors sang the state song and "Auld Lang Syne" before they said good-bye to each other and the campus.

This program contains an unofficial list of candidates for graduation on May 13, 2017, and a list of graduates who received degrees in August 2016 and December 2016.

The list of May graduates is as accurate as possible. However, because of printing deadlines, names of some degree recipients may not appear, while names of degree candidates may appear even though they have not completed their degree requirements.

The University's official registry for conferral of degrees is the Office of the Registrar, 901 West Illinois Street, Urbana, IL 61801.
